Online Safety Tip – Wellbeing App

Positive penguins

The Positive Penguins app has a simple 5-minute guided meditation for children to learn to sit, relax and let go of the thoughts as they come into their heads. There is also a strategy for children to understand that an event or situation happened that created an emotion in them – this emotion is not right or wrong, rather information – once they understand this and can examine the thoughts or stories they are telling themselves about situations, they can then challenge the stories they tell themselves and help problem solve situations.

How can it help your child?

It can help children understand why they feel a certain feeling and behave in a productive way.

Available for: iOS users - cost: £0.99.
