Online Safety

1. Use strong unique passwords.

There are several easy rules to follow when it comes to setting secure passwords.

Firstly, avoid any predictable personal details like your date of birth or your middle name. Your password should be hard to guess.

Secondly, you should set strong passwords that are extremely hard to guess.

The ideal password is:

- over twelve characters long,
- includes a capital letter,
- includes a number, and
- includes at least one special character.

Your passwords should be unique. Avoid using the same password on multiple websites and apps.

TIP: Use a password manager to generate unique passwords and store all your passwords in one secure vault.

PTA Events

Rather than have a Summer Fair this year, the PTA has thought about holding a disco with additional stalls to which all children and their parents can attend. We would love to have more parents attend our PTA meetings to share good ideas so if you can please come along to our next meeting which is on Monday, 23rd May at 3.30pm in the Year 1 classroom. Your children are welcome to attend with you.

School will be closed to children on Tuesday, 3rd May for an INSET Day. Staff in school will either be receiving First Aid training or working on the subject areas which they lead within school.
