

Year 1 Topic Work - Summer 1

Observe Nature!

Look for signs of new life every time you are out for a walk.

Observe changes in nature as you look for signs of spring.

E.g. Buds on plants, new flowers and maybe baby animals in nearby fields.

Draw the objects you have observed in pencil, pencil crayon, felt tip or paint.

We'd love to see your artwork in class!

Talk about food.

Make sure you can name the food you eat at home and sort it into food groups such as fruit, vegetables and meat.

Look up where food comes from. The origin is often named on the packet so you can find that place on a computer or on a map in an atlas.

Make a food collage picture by cutting up pictures from a magazine.

Cut fruit in half and draw a picture of what you can see.

Help to cook a healthy meal

Make your own sandwich by spreading the butter and cutting the cheese.

You could cut or grate some carrots or peppers as a healthy snack

Help to make your favourite tea for your family. Weigh ingredients, using measuring scales, and chop or grate the vegetables before they are cooked in a pan.

It would also be fun to bake some cakes but remember to help with the

Make an animal poster on the computer.

Type sentences about an animal you like using word processing software such as Word.

Remember to use important keys on the keyboard, like the SPACE BAR, RETURN KEY, the SHIFT KEY and the BACKSPACE.

Can you remember how to use the EDITING TOOLS to change the font, colour and size?

Once it is finished, print it and bring it to show us in school.

Dogs

Feed your dog and take it for a walk every day.

Dogs like to play and run.

Ask a grown up to help you copy and paste a picture into your document.

washing up too!
