### Online Safety:

As a parent or carer you play a key role in helping your child to stay safe online.

At [www.saferinternet.org.uk](http://www.saferinternet.org.uk) you can find lots of advice and tips how to do this.

#### A better internet starts with you...

It starts with an open and honest dialogue.

Talk regularly with your child about how they use technology, and find out what their digital life is like, including what their favourite sites and services are and also how being online makes them feel. Not sure where to begin? Have a look at online at our suggested conversation starters for parents.

#### It starts with a balanced approach.

As parents it's natural to feel worried about the risks posed by your child being online, but for young people the online world is exciting and fun, as it brings so many opportunities for them. Connect with your child by asking them to share with you their favourite things to do online, as well as discussing the risks they might come across. Use the quick activities online to help you.
